Note: Liens above were placed on real estate upon which the taxes had not been paid. This is necessary to prevent the tax becoming a personal liability of the collector. These liens were recorded at the Register of Deeds in Wiscasset, Maine, and represent an obligation of the property for 18 months after which time the lien auto-

matically forecloses and the property belongs to the town to dispose of. See Public Laws of 1933. After a lien has been recorded, for the owner to clear title the lien must be discharged at the registry of deeds; a recorded tax deed should be quitclaimed to clear title to a property.

Respectfully submitted,
JOSEPHINE A. TOWNSEND,
Tax Collector.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Monhegan, Greetings:

As I take my typewriter in hand this pleasant morning and start upon my 14th annual report as your superintendent of schools, I realize how futile are a few printed pages. I should like to discuss with you the aims of education: the need of children to acquire skills in reading, speaking, writing and arithmetic; to get understanding in health, history, geography, our democratic form of government; to develop an attitude toward their personal lives and toward citizenship which shall make possible happy and successful living for themselves and for their fellow men and women.

I am glad to be working in small towns where it is possible to be on terms of friendly acquaintance with practically all parents and to know quite intimately the work of each child, his mental and physical health, his progress in studies and his attitude toward school work. I should be glad to have a personal talk with each citizen about the cost of the schools and the work which is being done, but since that does not seem feasible, this printed report must briefly touch the high spots in the municipal year which is just closing.

The school census of last April listed 12 boys and 13 girls between the ages of 5 and 21 as resident at Monhegan. This is four less than a year ago. There are 13 pupils enrolled in school, one more than a year ago at this time. They are:

George Green, Betsey Pierce, Lorraine Richardson and Sherman Stanley in Grade VIII, Betty Field and

William Orne in Grade VII, Virginia Stanley in Grade VI, Leonebel Connaway in Grade V, Vinal Foss and Walter Green in Grade IV, Enid Stanley in Grade III, Philip Orne in Grade I and Priscilla Burton in Sub-Primary. In order to make larger and more interesting classes, pupils are combined as much as seems wise, particularly in reading, English and social studies.

In addition to the above students, Jeanette Foss is doing commercial High School work under the direction of the teacher.

Gladys Hutchins is a senior at Thomaston High School. Last June Maurice Davis and Natalie Orne graduated from South Portland and Rockland High Schools respectively.

The school is fortunate to retain for a third year Miss Margaret Bartlett of Windsorville, to whom a salary of \$25 per week is paid. She is a graduate of Farmington Normal School with 13 years experience. She attended normal summer schools in 1929 and 1930 and Boston University Summer School in 1936.

Thru the adoption of a new series of textbooks and renewed emphasis upon particular aspects of learning, we make changes which are usually improvements and we avoid the deadening effect of getting into a rut.

Our English texts were the oldest and poorest of our books. This fall each pupil from Grade III thru Grade VIII had a new and up-to-date English textbook with the workbook to accompany it. We are not neglecting formal grammar but we are placing special stress upon correct and effective speaking and writing.

As our former spelling books have worn out, we are

trying this year a spelling workbook which is meeting with the favor of both pupils and teacher. In reading we continue to emphasize the importance of a large vocabulary, acquaintance with the meaning of an ever increasing number of words.

Our eighth graders are using a combined history-geography-government text in the field of social studies. The new books seems to be an improvement. My own tests so indicate.

When I visit school I note the teacher's presentation of new lessons. I observe the interest, energy and attitude of the children. I hear their recitations and examine their written work in arithmetic. English and spelling. I discuss with the teacher the progress being made by individual pupils. At the conclusion of the year I give tests in reading and arithmetic to all grades and a 10-subject test to eighth graders for High School entrance. The Monhegan School is doing a good job.

The school is well equipped. On my last visit I thot particularly how appreciative the young people should be of the piano which was made possible by the work of the Community Club several years ago. We sometimes forget that many things we enjoy today are the result of the efforts of others who preceded us.

Screens were placed on two of the windows last fall and proved quite effective in keeping out the flies which are such a schoolroom pest during the early weeks of the school year. An inside door was fitted into the exit on the east end of the building; it has kept out much cold and the room has been easier to heat. It has not been necessary this winter to wall off the stage as in former years; this permits more sun-

light to enter the room. I suggest that the community consider sheathing and painting the interior of the stage.

In conclusion, it is a pleasure to work in a school system of intelligent, interested parents and citizens, cooperative and skilful teachers and growing boys and girls.

Respectfully submitted,
HAROLD B. CLIFFORD. Supt.

WARRANT
